

Due Credit

From "AllStarLink Wiki"

This site is mostly a cut and paste from the original ohnosec.org Drupal site. That site and the majority of its articles were developed by Steve Rogers WA6ZFT. Of course Jim Dixon WB6NIL and others have contributed to the original site over time.

While the authorship of all the articles on this new Drupal site is mine (at this time) it should be noted that almost none of it actually is. The authorship got lost during the cut and paste operations. I apologize for this unfortunate side effect.
