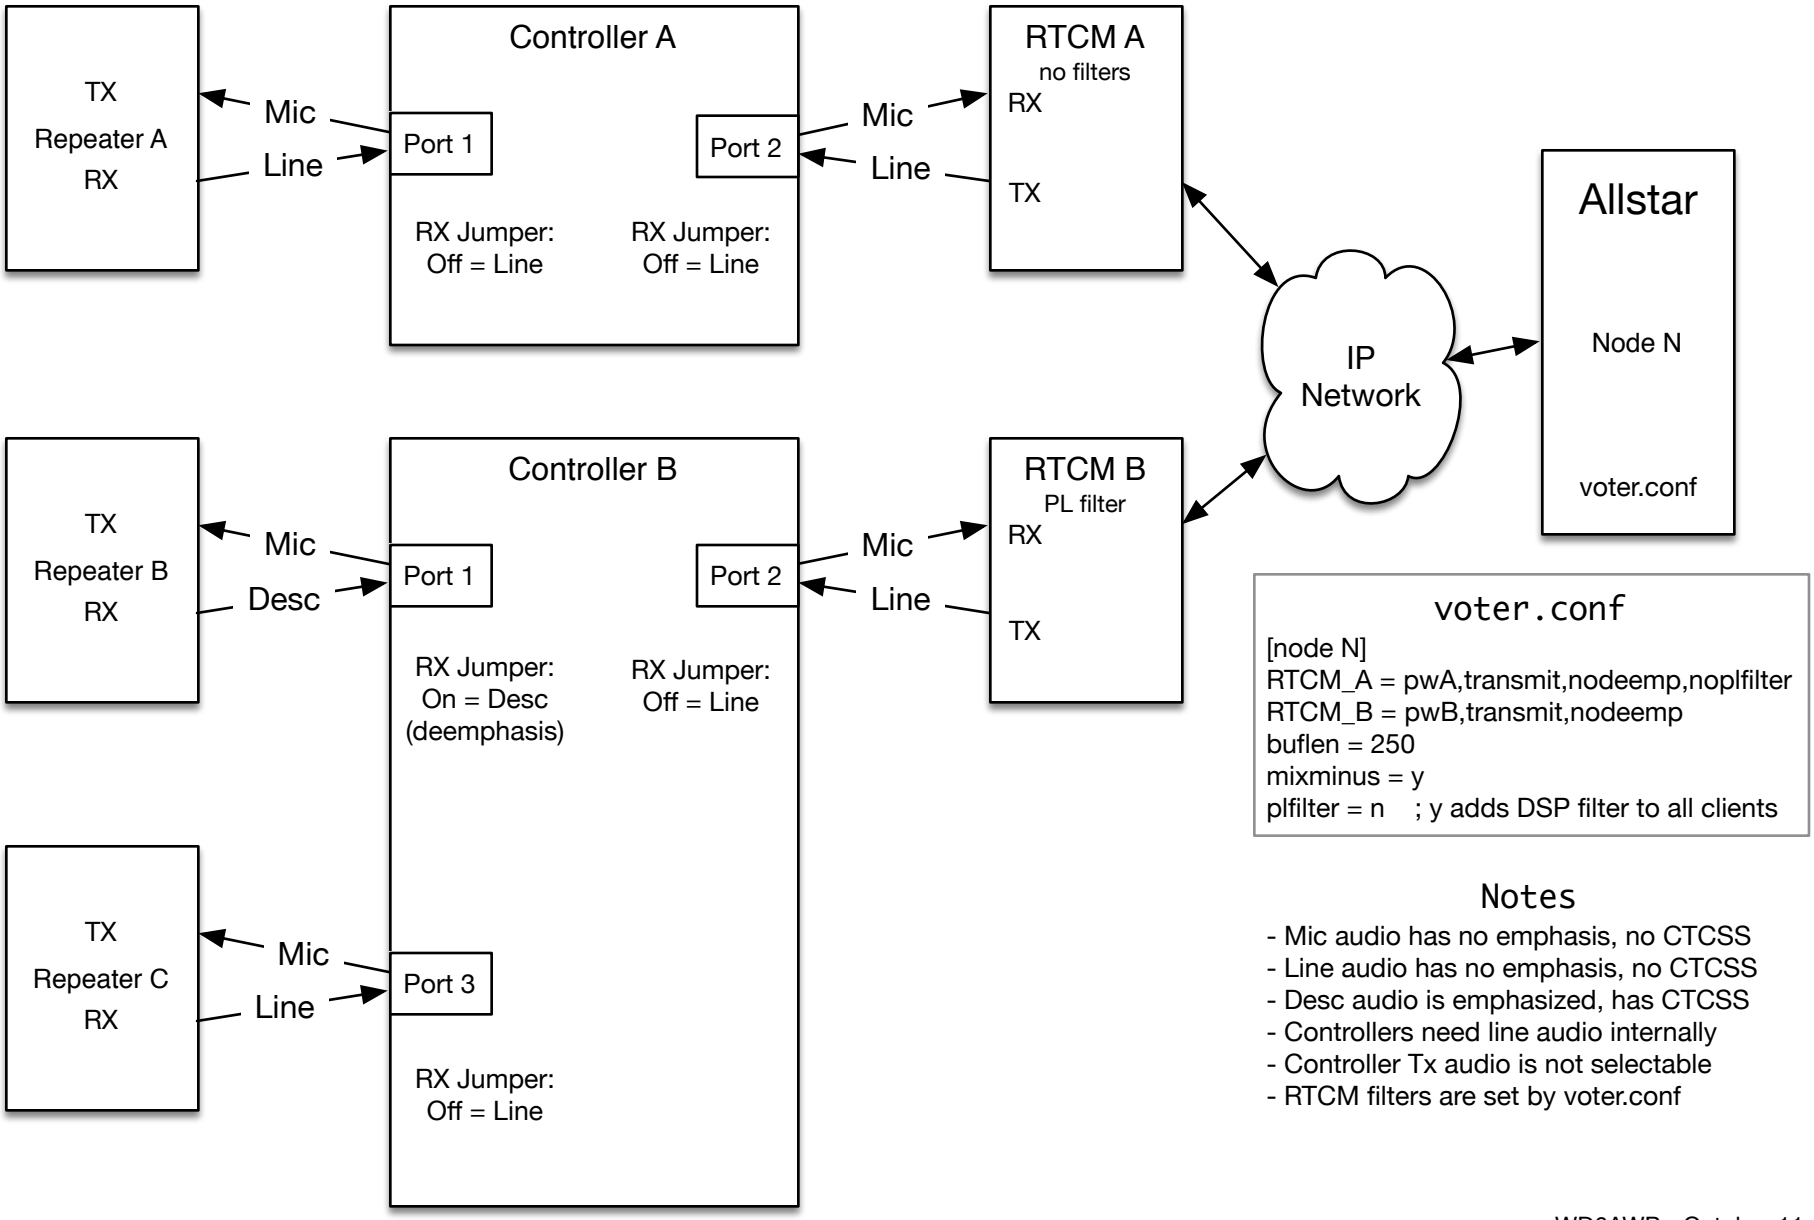
RTCM with Repeater Controller
Audio Configuration



voter.conf

```
[node N]
RTCM_A = pwA,transmit,nodeemp,noplfilter
RTCM_B = pwB,transmit,nodeemp
buflen = 250
mixminus = y
plfilter = n    ; y adds DSP filter to all clients
```

Notes

- Mic audio has no emphasis, no CTCSS
- Line audio has no emphasis, no CTCSS
- Desc audio is emphasized, has CTCSS
- Controllers need line audio internally
- Controller Tx audio is not selectable
- RTCM filters are set by voter.conf
